REF: Sindh Development Organisation

To Whom It May Concern

This is to confirm Sindh Development organisation, is a trusted partner working on behalf of ISRA UK – Feed The Poor to deliver aid projects assisting needy communities in the area of Sindh, Pakistan, such as;

- Clean water initiatives by way of Well construction
- Ramadhan programmes in the form of Iftar, Eid gift and food parcel provision to families & communities.
- Qurbani and feeding programmes, purchasing of, preparation and distribution of fresh meat and food packs.
- Mosque construction, overseeing and enabling the complete building of purpose built Mosques

To date we have found them to be efficient, transparent and professional in their delivery of aid.

Over the last five years they have gained the confidence of ISRA UK-FTP by meeting all requirements set out in our due diligence procedures by clearly adhering to them.

SDO has consistently produced evidence of receiving funds, distribution of agreed aid and shown clear visual & written proof of end beneficiary receipt.

They have understood, it is the only way an organisation like ours, will work with partners abroad.

It is our firm believe that SDO will continue to provide a professional and complete service while implementing any future projects funded by ISRA UK-FTP.

I wish them continued success in their quest to assist needy communities and would 100% recommend them as a viable and trustworthy partner.

Habib Mohammed
